Correct email sending on attachment to document #1008

History

2012-05-06 07:43 pm - Robert Mitwicki

I can confirm that. I have the same problem

2012-05-18 07:52 pm - Gregor Schmidt

Thanks for taking the time to report and confirm this bug.

I have spent some time to look into it. Below are some hints for the Chili maintainers, so they may save some minutes.

To reproduce the problem, you need to enable email notifications for _Document added_. It was introduced by the "one mail per recipient" feature. There seems to be no test case which covers adding an attachment to document. The diff below seems to fix the problem.

<pre><code class="diff">
diff --git a/app/controllers/documents_controller.rb b/app/controllers/documents
index 4356ea0..eb5799d 100644
--- a/app/controllers/documents_controller.rb
+++ b/app/controllers/documents_controller.rb
@@ -85,7 +85,7 @@ class DocumentsController < ApplicationController

   if attachments.present? && attachments[:files].present? && Setting.notified
     # TODO: refactor
-    attachments.first.container.recipients.each do |recipient|
+   @document.recipients.each do |recipient|
      Mailer.deliver_attachments_added(attachments[:files], recipient)
    end
   end
</code></pre>

2012-05-18 08:20 pm - Holger Just

- Target version set to 3.2.0

- Status changed from Open to Ready for review

Thanks for researching that. We're going to include this into version:3.2.0

2012-05-18 08:48 pm - Felix Schäfer

- Status changed from Ready for review to Closed

Added a test and pushed Gregor's solution in commit:1d3cdf1, thanks a lot!

2012-05-19 07:32 pm - Gregor Schmidt

@Felix: Great. Thanks for writing a proper test.

@Matthieu, @Robert: If you do not want to update to the master branch of ChiliProject, you may also just deactivate email notifications for "Document added". This way you won't get notifications, but at least you are able to add files to attachments.

Gregor
