

ChiliProject - Feature # 1055: Add a today variable to liquid

Status:	Closed	Priority:	Normal
Author:	Holger Just	Category:	Text formatting
Created:	2012-07-02	Assignee:	Holger Just
Updated:	2012-07-02	Due date:	
Remote issue URL:			
Affected version:			
Description:	Using a @today@ variable which always returns the current day, users can show or hide text based on the current day. This should work similar to the @date@ macro of http://projects.andriylesyuk.com/projects/wiking/wiki
