Description:	The Gantt chart was given a setting to limit the number of items to show. This limit was set to 500 by default. I should default to 'unlimited' because that is how the Gantt chart has worked in the past. Adding a limit could catch some users by surprise if they cannot see their full Gantt chart. commit:b48291ec63b58224df7b250ba62445dcbf5c835e
