# ChiliProject - Bug # 513: Attached files in "comment" no longer link to file

| | | | |
|---|---|---|---|
| **Status:** | Closed | **Priority:** | Normal |
| **Author:** | Peter Olson | **Category:** | Journals / History |
| **Created:** | 2011-07-08 | **Assignee:** | Eric Davis |
| **Updated:** | 2011-07-12 | **Due date:** | |

| | |
|---|---|
| **Remote issue URL:** | |
| **Affected version:** | 2.0.0 |
| **Description:** | I just updated to 2.0 and noticed none of my attached files link to the file in a "comment" or "update". |
| | See the attached image. |

[#513] Fix links to attachments in the issue history

## History

**2011-07-08 06:12 pm - Eric Davis**

*- Priority changed from High to Normal*

*- (deleted custom field) set to 2.0.0*

*- Status changed from Open to Needs more information*

Are those from pre-2.0 or were they posted after you upgraded?

**2011-07-08 06:15 pm - Peter Olson**

*- Status changed from Needs more information to Open*

The ones in that image were after the upgrade (I upgraded yesterday and those were posted this morning), but the old ones look the same.

**2011-07-08 06:28 pm - Peter Olson**

Also, I went straight from 1.2.0 to 2.0 in the upgrade.  Maybe that will help.

From our convo via IRC:

> that0n3guy: open the issue page, view the source for the page and look for that note, it will be in a div like "<div id='change-2254'". The number part is the journal id.

>
> that0n3guy: run this:

ruby script/runner -e production "puts Journal.find(1790).inspect"

here is my info:

<pre>
NOTE: Gem.source_index is deprecated, use Specification. It will be removed on or after 2011-11-01.

Gem.source_index called from /srv/www/chiliproject/lockfile/ruby/1.8/gems/rails-2.3.12/lib/rails/gem_dependency.rb:21.

#<IssueJournal id: 1790, journaled_id: 258, user_id: 3, notes: "Cory,\r\n\r\nDevelopment is going well.  We need to pic...", created_at: "2011-07-08 15:09:13", version: 12, activity_type: "issues", changes: {"attachments38"=>[nil, "creative-frontpage.png"], "attachments39"=>[nil, "flex-frontpage.png"], "attachments40"=>[nil, "flex-fullproducts.png"], "attachments41"=>[nil, "flex-catalog-grid.png"]}, type: "IssueJournal">

*- Target version set to 2.1.0*

*- Category set to Journals / History*

The issue is here source:/vendor/plugins/acts_as_journalized/lib/journal_formatter.rb#L91, the @link_to_attachment@ breaks there because it can't find @url_for@. I've tried including @ActionView::Helpers::UrlHelper@ at different places, the problem is that that in turn breaks the first thing that uses @url_for@ in the view (in this case source:/app/views/issues/_action_menu.rhtml#L2).

I guess this is one of the edgier cases of rails-usage, maybe Eric or Tim have an idea?

**2011-07-12 01:35 am - Eric Davis**

*- Assignee set to Eric Davis*

*- Status changed from Open to Closed*

Fixed in commit:dd6d9d1.

Felix: if you ever run into problems with using @url_for@ in @lib/@ or @vendor/@, look at how the @ViewHookListener@ does it. I've refined that over the years to work as close as possible to an actual view.

I'll try to remember it, thanks for the tip :-)
